

DL系列粗碎机

DL Serise Coarse Crusher

► 用途 (Application)

本机适用于制药、化工、食品等行业，是微粉碎夹攻前道工序的配套设备，它不受物料粘度、硬度、软度及纤维等限制，对多种物料能起较好的粉碎效果。

This machine is applied in pharmaceuticals, chemicals, foodstuffs etc. It is used as pre-processing equipment in fine grinding. It can grind any material with no limit to viscosity, hardness, Softness and fiber, etc. It can have a good crushing effect on various materials.

► 特点 (Features)

本机为立式粉碎结构，物料由进料斗进入粉碎室，利用旋转刀旋转冲击，固定刀和活动刀同时剪切而获得粉碎，经旋转离心力的作用，物料自动流向出口处。另外，DL系列按“GMP”标准设计，整机采用不锈钢材料制造，使药品、食品等更符合卫生要求。

The material drifted into grinding charmber through feed bucket. Punchded by knife edges and knife stands. Cutting and grinding simultaneously by revoling and fixed knives and due to the centrifugal force of revolving object automatically run to the exit. Model DL Series Pulverizer designed according to GMP standard. The machine is manufacture with stainless steel. It meets the requirements of National standard.

► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	DL20	DL40	DL60
主轴转速 Spindle Rotating Speed	rpm	500	500	500
电机功率 Motor Power	kw	4	5.5	11
生产能力 Production Capacity	kg/h	50-200	100-500	150-700
进料粒度 Feeding Size	mm	≤100	≤300	≤420
出料细度 Output Size	mesh	0.5-20	0.5-20	0.5-20
外形尺寸 Overall Size	mm	600*500*1100	780*800*1300	890*900*1600
机器净重 Net Weight	kg	320	500	620
