

# GW系列高效粉碎机

## GW Series High-efficiency Pulverizer

### ► 介绍 (Introduction)

本机广泛适用于制药、食品、化工等行业的物料粉碎。结构简单，粉碎室拆装与清洗方便，具有运转平稳、移动方便、噪音低、粉碎效果好等优点。

This machine is widely used in material crushing in the pharmaceutical, food, chemical and other industries. The machine has a simple structure, and the crushing chamber is easy to disassemble and clean. It has the advantages of stable operation, easy movement, low noise, and good crushing effect.

### ► 特点 (Features)

本机属高速运转机械，被粉碎物经高速刀片剪切获得粉碎，该机还可根据不同物料选用各种形状及尺寸不同的刀片，粉度大小通过更换筛网或调整速度获得。

This machine is a high-speed running machine. The crushed material is sheared by a high-speed blade to obtain crushing. The machine can also select blades of various shapes and sizes according to different materials. The powder size can be obtained by replacing the screen or adjusting the speed.

### ► 技术参数 (Technical Parameters)

参数ITEM		型号TYPE	GW-8	GW-16	GW-32
主轴转速 Spindle Rotating Speed		rpm	1000-2400	1000-2400	1000-2400
电机功率 Motor Power		kw	4	7.5	11
生产能力 Production Capacity		kg/h	10-100	50-300	100-500
出料细度 Output Size		mesh	10-120	10-120	10-120
外形尺寸 Overall Size		mm	1050*600*1600	1100*860*1520	1280*950*1600
机器净重 Net Weight		kg	150	250	320
