

ZLK系列快速整粒机

ZLK Series High Speed Re-granulator

► 用途 (Application)

本机适用于中西药、食品、化工颜料及饲料等行业中颗粒的破碎及整理。
干式、湿式颗粒均匀化、团块物料的粉碎、整粒。

This machine is suitable for crushing and sorting particles in industries such as Chinese and Western medicine, food, chemical pigments and feed.
Dry and wet granule homogenization, crushing and granulation of agglomerated materials.

► 特点 (Features)

ZLK系列快速整粒机在制药、化工、食品广泛运用，效果良好。该机有设计合理的滤网，杆件、能粉碎大块的易碎的物料，并根据离心力原理，用特殊孔滤网，仔细筛滤。摩擦滤网杆件能扎碎筛滤坚固的粒子。同时磨碎大块聚物，该机能替代摇摆式颗粒机。

ZLK Series High Speed Granulator are widely used in pharmacy, chemical industry, foodstuff industry with good effect. It' s designed reasonably with filter net and shaft. It can be easy to crush a block of material. The friction filter can make solid granule on a big block of material according to centrifugal force principle.It can replace swaying granulator.

► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	ZLK-80	ZLK-120	ZLK-160	ZLK-200
旋簧长度 Spin Springlength	mm	185	185	185	185
滤孔直径 Sieve Pore Dia	mm	φ1-8			
生产能力 Production Capacity	kg/h	50-100	100-200	150-300	200-400
电机功率 Power	kw	0.55	1.1	1.5	2.2
转速 Rotate Speed	r/min	1500-3000	1000-1500	1000-1500	800-1000
外形尺寸 Overall Size	mm	650*450*1000	1000*800*1200	1060*850*1350	1100*1000*1500
机器净重 Net Weight	kg	100	180	230	280
