

GS-32大产量电子数粒线

GS-32 Big capacity Electrical Counting and Bottling Line

► 介绍 (Introduction)

电子数粒装瓶生产线在世界各地制药企业广泛应用并得到强烈推荐。综合设备包括：理瓶机、片剂/胶囊数粒机、塞棉机、塞干燥剂机、旋盖机、贴标机、电磁感应封盖机。我们提供相应的集成解决方案，以满足市场对电子数粒生产线的需求。用于治疗片剂、胶囊、软胶囊和大多数固体颗粒。

Electronic counting and bottling production lines are widely used and highly recommended by pharmaceutical companies around the world. The comprehensive equipment includes: bottle unscrambler, tablet/capsule counting machine, cotton inserter, Desiccant inserter, capping machine, labeling machine, electromagnetic induction sealing machine. We provide corresponding integrated solutions to meet the market demand for electronic counting packing lines. Used for the treatment of tablets, capsules, soft gelatin capsules and most solid particles.
